

APPLICATION PROCESS

Do you need seed capital, a large network of mentors, customers, and investors, plus the expertise and resources of Los Alamos National Lab?

Apply to the 2023 cohort on February 15 through April 17!

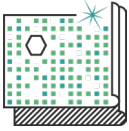

New Mexico's Lab-Embedded Entrepreneur Program's annual application cycle is only open for 8 weeks each spring. Learn about New Mexico LEEP's timeline, selection criteria, important dates, and our upcoming informational webinar.

Space Technologies

Biotechnology and Bioscience Applications

Artificial Intelligence (AI) & Advanced Computing

Clean Energy Transition

Advanced Materials and Manufacturing

LEARN ABOUT OUR SELECTION CRITERIA

1

- An application or product idea that fits into one or more of our 5 technology areas.
- Intention and drive to transition your technology into a product.
- Early customer discovery and interest.
- Commitment to NM LEEP for two years.
- Relocation to New Mexico for the two-year program duration or longer.
- Technology development that matches New Mexico's national laboratory expertise. Contact us if you need help discovering which capabilities and focus areas match your innovation.
